

CITY OF OCEANSIDE

(This Measure will appear on the ballot in the following form.)

MEASURE K

Shall the Ordinance adding Article XVII, Section 2.94 to Chapter 2 of the Oceanside City Code establishing limits of three four year terms whether consecutive or not for the offices of mayor and city council member be adopted?

This measure requires approval of a simple majority (50% plus 1) of those voting on the measure.

CITY ATTORNEY IMPARTIAL ANALYSIS

Voter approval of Measure K would add Section 2.94 to the Oceanside City Code to establish term limits for the Mayor and City Council. The Mayor and City Council are elected positions with four-year terms. Under current law, the City of Oceanside does not impose term limits on any of its elected officials. California law requires voter approval of any local law to enact term limits.

Measure K was placed on the ballot by the Oceanside City Council and, if adopted, would amend the Oceanside City Code to limit Council Member service to three four-year terms over the course of an official's lifetime. Similarly, the proposed amendment would cap the number of terms one could serve as Mayor to three four-year terms over the official's lifetime. The terms served as a member of the City Council would not count against the three-term limit for the Mayor. Similarly, the terms served as Mayor would not count against the three-term limit for a Council Member. This means that if Measure K is passed by the voters, an elected official could serve a maximum three four-year terms as a member of the City Council and an additional three four-year terms as the Mayor.

Measure K provides that a partial term of two years or more counts as a full term for both the Mayor and Council Member. Therefore, if an official is elected or appointed to fill a vacant position as either Mayor or Council Member, a partial term served for two years or more will count as a full term.

The proposed City Code amendment, if approved by the voters, would become effective immediately. As required by state law, the term limits measure would apply prospectively only, meaning it will apply only to terms commencing after November 3, 2020.

Measure K does not apply to the Offices of City Treasurer or City Clerk.

A Yes vote is in favor of adopting Oceanside City Code section 2.94 to establish limits of three four-year terms for the Mayor and City Council.

A No vote is in favor of the current system of having no term limits for the Mayor and City Council.

The above statement is an impartial analysis of Measure K. If you desire a copy of the ordinance, please call the City Clerk's office at (760) 435-3001 and a copy will be mailed at no cost to you. ARGUMENT IN FAVOR OF MEASURE K

The Oceanside City Council unanimously approved placing on the November ballot the establishment of term limits for elected officials. Pursuant to California Government Code section 36502(b), term limits must be approved by the voters.

In the history of Oceanside, like most other cities in the County, nothing prevents councilmembers from holding office for as many terms as they are able to be reelected. Measure K will encourage greater citizen involvement and allow new people the opportunity to contribute to their community.

Throughout California, voters have overwhelmingly supported term limits for public officials. Cities like San Diego, Chula Vista, Coronado, La Mesa, National City and San Marcos have all established term limits for their elected officials. Oceanside is the largest City in San Diego County that does not have term limits.

The City Council placed Measure K on the ballot so that voters can decide if they want to limit councilmember and mayoral terms in Oceanside. Term limits for the Oceanside Mayor and City Councilmembers will give voters a real chance for fresh perspectives, new ideas and change.

Measure K will establish a reasonable limit of three four-year mayor or council terms for service beginning after the November 3, 2020 election.

Term limits will improve our political process and open up our government. Vote YES on Measure K.

PETER WEISS
Mayor

ARGUMENT AGAINST MEASURE K

No argument against the measure was filed in the office of the City Clerk.
