8. HOW DO I FIND A VOTE CENTER NEAR ME?

You can visit any vote center in the First Supervisorial District to cast your ballot in-person. A complete list of locations is included in your voter information pamphlet sent to your home and may also be viewed online at sdvote.com.

9. WHAT IF I WANT TO VOTE IN-PERSON USING THE OFFICIAL BALLOT I RECEIVED IN THE MAIL?

Voters who would rather vote in-person by marking their pre-printed ballot with a pen can do so by bringing in the official ballot they received in the mail to any of the vote centers located in the First Supervisorial District **starting Saturday**, **June 21**. Voters must first check-in at the vote center, fill out the check-in form, and sign the ePollbook (also called the electronic roster of voters). Once the voter checks-in, the barcode on their mail ballot return envelope is automatically suspended.

The voter will be given a secrecy sleeve to place their ballot inside. The voter will be asked to slide their ballot toward the top of the secrecy sleeve so the sequence number at the top of the ballot can be seen by the poll worker. This will conceal any already marked contests while the poll worker goes through the steps to ensure that the ballot the voter carried in is in fact the voter's correct ballot type.

The sequence number is a four-digit number that identifies a voter's precinct and ballot type. It represents the defined geographic boundary that determines which contests are on the ballot for the voters in a particular area.

The voter will then either be directed to a voting station to mark their ballot with the pen or marker provided by the poll worker or if the voter already marked their ballot prior to arriving at the vote center, they will be directed to the check-out station to have the poll worker cast their ballot into the ballot box. An envelope is not needed because the voter checked-in and signed the ePollbook.

Once the ballot is placed inside the ballot box, there is no way to link how that specific voter voted. Their ballot is completely anonymous.
