

## APPENDIX A

### FULL TEXT OF BOND MEASURE

#### INTRODUCTION

The following is the abbreviated form of the bond measure:

"To increase student safety and school security; repair aging classrooms and schools including outdated plumbing, electrical wiring, roofs and heating/ air conditioning; replace portables with permanent classrooms; renovate classrooms and qualify for State matching funds, shall Lakeside Union School District's measure authorizing \$33 million of bonds with annual audits, legal rates, projected yearly levies less than \$0.03 per \$100 of assessed valuation while bonds are outstanding (generating \$2.2 million per year) and taxpayer oversight be approved?"

#### BOND AUTHORIZATION

By approval of this measure by at least 55 percent of the registered voters voting on the measure, the Lakeside Union School District will be authorized to issue and sell bonds of up to \$33,000,000 in aggregate principal amount at interest rates not to exceed legal limits and to provide financing for the specific types of school facilities projects listed in the Bond Project List described below, subject to all the accountability requirements specified below.

#### ACCOUNTABILITY REQUIREMENTS

The provisions in this section are specifically included in this measure in order that the voters and taxpayers in the District may be assured that their money will be spent wisely. Expenditures to address specific facilities needs of the District will be in compliance with the requirements of Article XIII A, Section 1(b)(3), of the State Constitution and the Strict Accountability in Local School Construction Bonds Act of 2000 (codified at Education Code Sections 15264 and following.)

**Evaluation of Needs.** The School Board has identified detailed facilities needs of the District and has determined which projects to finance from a local bond. The School Board hereby certifies that it has evaluated safety, class size reduction, enrollment growth, and information technology needs in developing the Bond Project List shown below.

**Independent Citizens' Oversight Committee.** Following approval of this measure, the Board of Trustees will establish an Independent Citizens' Oversight Committee, under Education Code Sections 15278 and following, to ensure bond proceeds are expended only on the types of school facilities projects listed below. The committee will be established within 60 days of the date when the results of the election appear in the minutes of the School Board.

**Performance Audits.** The School Board will conduct annual, independent performance audits to ensure that the bond proceeds have been expended only on the school facilities projects listed below.

**Financial Audits.** The School Board will conduct annual, independent financial audits of the bond proceeds until all of those proceeds have been spent for the school facilities projects listed below.

**Government Code Accountability Requirements.** As required by Section 53410 of the Government Code, (1) the specific purpose of the bonds is set forth in this Full Text of the Measure, (2) the proceeds from the sale of the bonds will be used only for the purposes specified in this measure, and not for any other purpose, (3) the proceeds of the bonds, when and if issued, will be deposited into a building fund to be held by the San Diego County Treasurer, as required by the California Education Code, and (4) the Superintendent of the District shall cause an annual report to be filed with the Board of Trustees of the District not later than January 1 of each year, which report shall contain pertinent information regarding the amount of funds collected and expended, as well as the status of the projects listed in this measure, as required by Sections 53410 and 53411 of the Government Code.

#### **NO TEACHER OR ADMINISTRATOR SALARIES**

Proceeds from the sale of bonds authorized by this measure shall be used only for the purposes specified in Article XIII A, Section 1(b)(3), those being for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and the acquisition or lease of school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

#### **STATE MATCHING FUNDS**

The following statement is included in this measure pursuant to Education Code Section 15122.5: Approval of this measure does not guarantee that the proposed project or projects that are the subject of bonds under this measure will be funded beyond the local revenues generated by this measure. The District's proposal for the project or projects described below may assume the receipt of matching state funds, which, if available, could be subject to appropriation by the Legislature or approval of a statewide bond measure.

#### **INFORMATION ABOUT ESTIMATES AND PROJECTIONS INCLUDED IN BALLOT**

Voters are informed that any estimates or projections in the bond measure or ballot materials, including relating to estimated tax rates, the duration of issued bonds and related tax levies and collections are provided as informational only. Such amounts are estimates and are not maximum amounts or limitations on the terms of the bonds, the tax rate or duration of the tax supporting repayment of issued bonds. Such estimates depend on numerous variables which are subject to variation and change over the term of the District's overall facilities and bond financing plan, including but not limited to the amount of bonds issued and outstanding at any one time, the interest rates applicable to issued bonds, market conditions at the time of sale of the bonds, when bonds mature, timing of project needs and changes in assessed valuations in the District. As such, while such estimates and approximations are provided based on information currently available to the

District and its current expectations, such estimates and approximations are not limitations and are not binding upon the District.

## **BOND PROJECT LIST**

This Bond Project List, which is an integral part of this proposition, describes the specific projects the District proposes to finance with proceeds of the bonds.

Proceeds from the sale of bonds authorized by this measure shall be used only for the construction, reconstruction, rehabilitation, or replacement of school facilities on the Bond Project List, including the furnishing and equipping of said school facilities, or the acquisition or lease of real property for said school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

In order to meet all identified facility needs, the District intends to complete projects using a combination of funding sources. These sources may include joint-use funds, development impact fees, state funds (if available) and other available funds. The District will pursue state matching funds if and when they become available, and if received, they will be used for and mainly applied to projects on the Bond Project List or other high priority capital outlay expenditures as permitted in Education Code Section 17070.63(c). No project is dependent on the receipt of state funding for completion.

Bond proceeds will be expended to modernize, replace, renovate, construct, acquire, equip, furnish and otherwise improve the facilities of the District located at the following locations:

Eucalyptus Hills School  
Lakeside Farms Elementary  
Lakeside Middle School  
Lakeview Elementary  
Lemon Crest Elementary  
Lindo Park School  
Riverview International Academy  
Tierra del Sol Middle School  
Winter Gardens School  
Lakeside Early Advantage Preschool  
District Headquarters and Other Support Facilities

Specific projects to be funded by the bond measure include, without limitation, the following:

### **School Safety and Security, Renovation, Repair and Upgrade Projects**

- Repair/replace existing plumbing systems, including drainage.
- Renovate, repair, expand and/or upgrade the interior, exterior and/or infrastructure of existing classrooms and school facilities.
- Repair and upgrade roofs, ceilings, walls, and floors.
- Replace existing wiring systems to meet current electrical and accessibility codes and increased capacity.

- Upgrade, expand, repair, construct and/or equip classrooms, science labs, multi-purpose rooms, food service facilities, auditoriums, libraries, and other school facilities.
- School vehicles including but not limited to school buses and maintenance, service and delivery vehicles.
- Furnish and equip new and renovated classrooms, science labs, libraries and other school facilities.
- Renovate and repair restrooms.
- Replace existing window systems with energy efficient systems.
- Repair or replace outdated temporary portable classrooms or replace with permanent classrooms.
- Upgrade or replace buildings that do not meet current minimum building code standards.
- Remove dry rot and repair damage caused by dry rot.
- Replace/upgrade existing signage, bells, clocks and fire protection systems.
- Install, repair, upgrade, or replace safety and security systems for students and staff.
- Install energy efficient systems.
- Upgrade and repair play areas, hard courts and play fields.
- Upgrade, repair, or expand school site parking, driveways, walkways, ground, and utilities.
- Abate and remove hazardous materials identified prior or during construction.
- Repair, replace and/or upgrade paved surfaces, turf, landscaping and other grounds to eliminate safety hazards and improve outside instructional areas.

#### **District-Wide Wiring and Technology Infrastructure for Instructional Support and Effective Learning Environment Projects**

- Upgrade and expand campus-wide intercom and wireless systems, and telecommunications, internet, and network connections.
- Upgrade and replace network equipment.
- Update technology infrastructure to improve student access to modern technology.

The bond projects described in this Bond Project List include the costs of furnishing and equipping such facilities, and all costs which are incidental but directly related to the types of projects described above.

Examples of incidental costs include, but are not limited to: costs of design, engineering, architect and other professional services, facilities assessments, inspections, site preparation, utilities, landscaping, construction management and other planning and permitting, legal, accounting and similar costs; independent annual financial and performance audits; a customary construction contingency; demolition and disposal of existing structures; the costs of interim housing and storage during construction including relocation and construction costs incurred relating to interim facilities; rental or

construction of storage facilities and other space on an interim basis for materials and other equipment and furnishings displaced during construction; costs of relocating facilities and equipment as needed in connection with the projects; interim classrooms and facilities for students, administrators, and school functions, including modular facilities; federal and state-mandated safety upgrades; addressing unforeseen conditions revealed by construction/modernization and other necessary improvements required to comply with existing building codes, including the Field Act; access requirements of the Americans with Disabilities Act; costs of the election; project construction oversight, management and administration during the duration of such projects, including by District personnel, and bond issuance costs.

Unforeseen conditions may arise during the course of planning, design and construction resulting in the scope and nature of any of the specific projects described above being altered by the District. In the event that the District determines that a modernization or renovation project is more economical for the District or otherwise in the District's best interests to be undertaken as new construction, this bond measure authorizes said new construction, including land acquisition, relocation, expansion and construction and/or reconstruction, and all costs relating thereto. In addition, this measure authorizes the acquisition of real property, including necessary rights of ways or other real property interests, required to expand District facilities, to provide access to school or other District facilities, or to provide additional school or related facilities. Further, authorized projects include reimbursements for project costs previously paid and paying and/or prepaying interim or previously obtained financing for the types of projects included on the project list, such as bond anticipation notes, and including payment and prepayment of lease payments relating to projects and/or equipment previously financed. Finally, projects on this list may be undertaken and used as joint use projects with other public agencies.

For any project listed above with respect to construction at an existing District site, the District is authorized to identify an alternate site and/or acquire land for such purpose and construct the approved project at such site if the District has determined that the existing site does not satisfy any requirements of the Division of State Architect or other State laws, codes and regulations applicable to public school sites.

Approval of the District's bond measure does not guarantee that all of the identified projects within this Bond Project List will be funded beyond what can be completed with local funds generated by the bond measure and does not guarantee that the projects will be completed in any particular order. The District will also pursue funds from the State of California to complete certain of the identified facilities projects.

The order in which school facilities projects are listed above does not suggest an order of priority. Project priorities will be determined by the District Board.

**APPENDIX B**

**ABBREVIATED FORM OF BOND MEASURE**

To increase student safety and school security; repair aging classrooms and schools including outdated plumbing, electrical wiring, roofs and heating/ air conditioning; replace portables with permanent classrooms; renovate classrooms and qualify for State matching funds, shall Lakeside Union School District's measure authorizing \$33 million of bonds with annual audits, legal rates, projected yearly levies less than \$0.03 per \$100 of assessed valuation while bonds are outstanding (generating \$2.2 million per year) and taxpayer oversight be approved?

Bonds—Yes

Bonds—No

## APPENDIX C

### TAX RATE STATEMENT REGARDING PROPOSED

#### \$33 MILLION LAKESIDE UNION SCHOOL DISTRICT GENERAL OBLIGATION BONDS

An election will be held in the Lakeside Union School District (the "District") on March 3, 2020, to authorize the sale of up to \$33 million in bonds of the District to finance school facilities as described in the measure. If such bonds are authorized and sold, principal and interest on the bonds will be payable only from the proceeds of *ad valorem* tax levies made upon the taxable property in the District. The following information is provided in compliance with Sections 9400-9404 of the Elections Code of the State of California. Such information is based upon the best estimates and projections presently available from official sources, upon experience within the District, and other demonstrable factors.

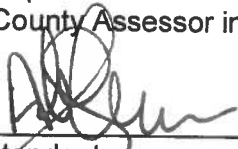

Based upon the foregoing and projections of the District's assessed valuation, the following information is provided:

1. The best estimate of the average annual tax rate which would be required to be levied to fund this bond issue over the entire duration of the bond debt service, based on a projection of assessed valuations available at the time of filing of this statement, is \$0.029 per \$100 of assessed valuation (or \$29.00 per \$100,000 of assessed value). The final fiscal year in which the tax is anticipated to be collected is 2049-50.
2. The best estimate of the highest tax rate which would be required to be levied to fund this bond issue, based on a projection of assessed valuations available at the time of filing of this statement, is \$0.030 per \$100 of assessed valuation (or \$30.00 per \$100,000 of assessed value). It is estimated that such rate would be levied starting in fiscal year 2021-22 and following.
3. The best estimate of the total debt service, including the principal and interest, that would be required to be repaid if all the bonds are issued and sold is approximately \$59.9 million.

Voters should note the estimated tax rate is based on the assessed value (not market value) of taxable property on the County's official tax rolls. In addition, taxpayers eligible for a property tax exemption, such as the homeowner's exemption, will be taxed at a lower effective tax rate than described above. Property owners should consult their own property tax bills and tax advisors to determine their property's assessed value and any applicable tax exemptions.

The attention of all voters is directed to the fact that the foregoing information is based upon projections and estimates only, which amounts are not maximum amounts and are not binding upon the District. The actual debt service, tax rates and the years in which they will apply may vary from those used to provide the estimates set forth above, due to factors such as variations in the timing of bond sales, the par amount of bonds sold and

market interest rates available at the time of each sale, actual assessed valuations over the term of the bonds, and other factors. The date and amount of bonds sold at any given time will be determined by the District based on the need for project funds and other considerations. The actual interest rates at which the bonds will be sold will depend on conditions in the bond market at the time of sale. Actual future assessed valuations will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.

By:  \_\_\_\_\_  
Superintendent  
Lakeside Union School District
